

Surface Solutions Installs More Ucrete HP at Indiana Canning Facility

Project Information	
Name of Project:	
System Used:	Ucrete HP
Market Sector:	Food and Beverage
Location:	Indiana
Client:	Canning Facility
Square Footage:	3,000 SF
Completion Time:	

Surface Solutions, Inc was asked to resurface two rooms in a canning facility in Indiana. The 3,000 square foot areas had failing epoxy mortar and in one section under equipment it was several inches deep. Surface Solutions, Inc. removed the epoxy and filled the depressions with BASF Rapid Mortar 1060. We re-prepped the 1060 and keyed in edges and transitions and applied UCRETE HP at nominal 1/4" Thickness, broadcast sand and applied our own SS 253---A chemical resistant Novolac coating. Because of our professional crew and quality installation Surface Solutions, Inc. will return to install another UCRETE flooring system in June!
